Dear Radek,

As you know from the last letter sent by WTKF Board of Directors, the meeting you are going to have in Prague wasn't acknowledged as a legitimate WTKF General Assembly. That's why we cannot take part in.

Also we have to send our international passports applying for Mexican visa as we are going to visit GA to be organized there and cannot apply for a Schengen visa now. I believe we could discuss the problems you mean by phone.

The only problem we really see is the lack of participants and the absence of some national federations not only those suspended by the decision of BoD. Perhaps they are waiting for some decisions to be made in Prague. We deeply regret the situation but the only thing we can do is to organize the Championship on a high level with them or without.

Also I cannot skip the fact that in Agenda you've sent there is a proposal to transmit the authority of organizing the Championship to you and Mr. Maciewski. Actually that means casting discredit on our abilities to organize the event. I hope you understand this is disrespectful towards All-RTKF and will eliminate this proposal from your Agenda.

Sincerely yours

Pavel Chernousov
President of All-RTKF
